## 1999 READERS CHOICE AWARDS

# Business Depot: the best buys in office supplies

Business Depot in Newmarket is part of Canada's largest office products superstore chain. The company offers deep discounted prices on a broad and deep selection of office products in a supermarket-style setting. Business Depot targets small to mid-size businesses with 20 or fewer employees located within 10 minutes of the store, and home offices.

With stores five times larger than its competitors, Business Depot stocks more than 7,500 brand name office products stacked to the rafters throughout the store. Volume buying lets Business Depot offer its customers savings on a large range of quality office merchandise, including paper, furniture, small business machines and computers, as well as snacks, coffee and janitorial supplies. Services include photocopying, faxing, binding, laminating, custom printing and shredding. Phone and fax orders are accepted and delivery is available.

The Business Depot Ltd. was founded by Jack Bingleman in 1990. "I recognized that pricing in the office products category had remained unchallenged for years," says Bingleman. "Small to mid-size companies, as well as individuals, were affected because they were not able to get any major breaks on prices. I saw an opportunity to bring real value to this segment of the market."

**Business Depot is located at 3175 Hwy 7 in Markham and can be reached at (905) 479-3101.**
